March 11 (Sat) and 12 (Sun)

On demand

Test video

To confirm the availability of on-demand distribution

If you cannot watch this test video, you won't be able to watch the video during the conference. We may not be able to answer inquiries on the day, so please be sure to check before making payment.

Recommended environment

Windows 10 or later, macOS 10.15 (Catalina) or later / Microsoft Edge, Firefox, Chrome, Safari (Mac version only), each latest version / Please enable javascript. / The display may be corrupted in an environment with low resolution. (1920x1080 Full HD recommended)

* As a guideline for non-compliant environments, PCs purchased more than 7 years ago, devices that have not been updated last year, or devices that could not be updated due to lack of manufacturer support.

* We do not recommend browsing on smartphones or tablets.

[About the player]

From the icon at the bottom of the screen, you can switch the full screen display and adjust the volume and image quality. The image quality is automatically set according to the internet speed you are using. You can watch with high image quality by increasing the value, but the amount of data transfer will also increase, so if the video stops frequently, please lower the image quality and watch.

[Your device information]

Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/109.0.0.0 Safari/537.36 Edg/109.0.1518.78

◆ If you cannot watch the test video, please check the following contents.

The main causes are "not supported due to old OS and browser", "viewing is restricted by environmental security settings", "Internet is too slow or unstable" and so on. Please check the following items for the remedy

If you cannot watch due to "Not supported because your OS or browser is old"

- Make sure your device meet the recommended environment.
- If you are using the OS standard browser, you may be able to watch it by changing to another browser (Chrome, Firefox, etc.). Depending on the OS version, it may not be possible to play on Android / iOS tablets / smartphones.

Reference: Browsers other than OS standard (IE / Edge / Safari)

Chrome <https://www.google.com/intl/en/chrome/>

Firefox <https://www.mozilla.org/en/firefox/new/>

If you cannot watch due to "viewing is restricted due to the security settings of your environment"

- Temporarily disable your antivirus software and firewall and see if it can be played. You may be able to play it by changing the browser.
 - The Internet of the facility itself may be restricted in the network of hospitals that use electronic medical records and public institutions that handle confidential information. If you can see it at home but not at the facility, check with your facility's network personnel.
- * Access from outside Japan may be restricted by national policy. Please take measures such as VPN.

If you cannot watch due to reasons such as "Internet speed is too slow or unstable"

- If you cannot watch on a Wi-Fi connected device, you may be able to watch by connecting by wire. When watching, please use a wired personal computer as much as possible. In a 3G / 4G line such as a smartphone or tablet or in a Wi-Fi environment, you may not be able to watch because it is easily affected by the surrounding environment.
- Check your current internet connection speed. It may be difficult to watch in places where there is no constant speed of 10 Mbps or higher. Even if you can watch it, the image quality and sound quality may be very poor.
- Even if the speed is sufficient, if there are other terminals sharing the Internet line in the same network, that terminal may occupy the line and you may not be able to watch.

Please check the video and audio that appears on the screen.

Payment of participation fee

Your registration will be completed as soon as payment is processed.
After sending the card information, two e-mails will be sent at the same time: a payment completion notification from the card payment company and a participation registration completion notification e-mail from this system.
If you have received a payment completion notification email, but the status remains unpaid, please contact the Secretariat Office.

- * Only online credit card payments are supported.
- * Please note that refunds are not possible.
- * Do not use your browser's reload or back button during payment. You may be deducted twice.

[Participation category/Amount to be paid]

Doctor/Company 10,000 JPY

[Open the payment screen \(move to an external site\)](#)

If the payment screen is displayed in Japanese, please change the display language from the options on the upper right.

After confirming the video, please click this button to complete the payment procedure.
(Credit card payment only)

Registration procedure has been completed
